

# Airport Terminal Reconstruction Project

APPROVAL DATE: SEPTEMBER 18, 2019

CLOSING DATE: JUNE 30, 2025

## OBJECTIVE

Restore the passenger capacity of Princess Juliana International Airport to pre-Hurricane Irma levels with improved resilience toward hurricanes

## BENEFICIARIES

- ✓ Airlines and airport terminal through increased revenue
- ✓ Travelers from increased airport capacity and flight availability
- ✓ Tourism sector from the recovery of air transport services
- ✓ Workers from job creation during and after the reconstruction

## APPROACH

### RECONSTRUCT

the Princess Juliana International Airport terminal facilities

### INCREASE

airport resilience and air traffic safety, including bridges and doors

### BUILD

the government's capacity on airport governance and air traffic regulation

### SUPPORT

airport operations to improve management, airport resilience, and air traffic safety

## KEY EXPECTED RESULTS

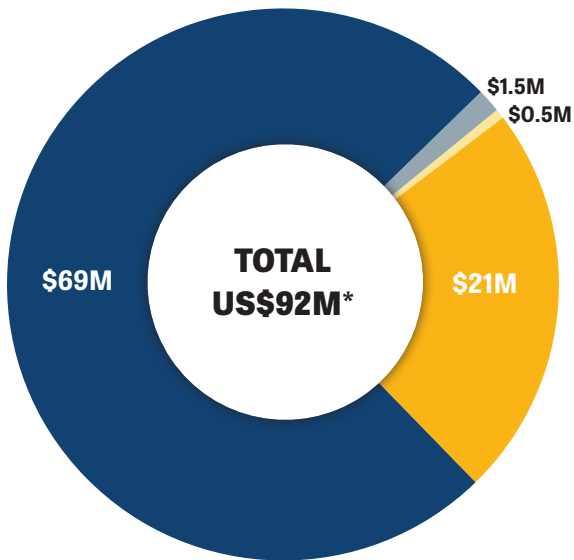

TERMINAL BUILDING MADE RESISTANT TO CATEGORY 5-LEVEL HURRICANES

**2.5 million** PASSENGER HANDLING CAPACITY OF THE TERMINAL

INSTALLATION OF STRENGTHENED JET BRIDGES AND RESILIENT ENTRANCE DOORS

RESTORATION OF BAGGAGE HANDLING SYSTEM

## COMPONENTS

### FOR MORE INFORMATION

[projects.worldbank.org/en/projects-operations/project-detail/P167974](https://projects.worldbank.org/en/projects-operations/project-detail/P167974)

- 1 Reconstruction of the Princess Juliana International Airport Terminal facilities (\$69 million)**
  - Restore the terminal facility and reinstall equipment.
  - Replace passenger boarding bridges and entrance doors.
- 2 Capacity building of and project management by the Princess Juliana International Airport Operating Company (\$1.5 million)**
  - Support PJIAE in project implementation, management, and monitoring and evaluation.
  - Support PJIAE capacity building activities to improve airport resilience and air traffic safety.
- 3 Capacity building of and project management by the government of Sint Maarten (\$0.5 million)**
  - Support the government in project management and capacity building, including in airport governance and air traffic regulation.
  - Finance training and operating costs for these activities.
- 4 Support of Princess Juliana International Airport operations (\$21 million)**
  - Finance select PJIAE operating expenditures to continue operations without interruption during the reconstruction period.

**Additional Financing (\$20 million)** approved on November 17, 2021.

\*\$92 million from the World Bank-managed Trust Fund grant, with counterpart funding \$50 million from co-financing with the European Investment Bank and \$7 million from Princess Juliana International Airport Operating Company N.V. funds

## IMPACT ON PUBLIC GOOD

**Improve climate change adaptation and mitigation**

Make terminal facilities, bridges, and doors more resilient to hurricanes

**Support the travel and tourism sector**

Increase passenger handling capacity and governance of the airport terminal

**Strengthen the regional status of the country**

Improve regional connectivity and transportation efficiency
